PROFESSIONAL SUMMARY

Aspiring **Frontend Developer** with working experience in **developing user-friendly** and **responsive frontend web applications** using **HTML, CSS, and JavaScript**. Skilled in **DOM manipulation, browser storage, API integration, and modern UI design**, with practical project experience demonstrated through live **GitHub deployments**. A highly motivated **frontend developer** with **keen interest** and passion for **creating clean** and **user-friendly frontend web interfaces** that are **optimized for performance and development skills**.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript (ES6), Responsive Design.
- **Web Concepts:** DOM manipulation, Browser localStorage, REST API integration, async fetch.
- **Tools & Platforms:** Git, GitHub, VS Code, Chrome DevTools.
- **Programming Exposure:** Python (Basic), SQL (Basic).
- **Core Strengths:** Problem Solving, Debugging, Clean UI Design, Documentation, Continuous Learning.

KEY PROJECTS

To-Do List Web App

- Built an **interactive task manager** with **add, delete, and persistent storage** features using **LocalStorage**.
 - Implemented **dynamic updates** to the **DOM** and **UI layout**.
 - Enhanced **comprehension** of **state handling** in **frontend applications**.
- 🔗 **Live:** <https://taarushi-byte.github.io/web-dev-portfolio/todo-app/>

Weather App (API-Based)

- Developed a **search application** to fetch **real-time weather** using the **OpenWeather REST API**.
 - Implemented **async JavaScript** using **Fetch API, JSON parsing, and error handling**.
 - Designed a **clean responsive interface** to provide a **better user experience**.
- 🔗 **Live:** <https://taarushi-byte.github.io/web-dev-portfolio/weather-app/>

Calculator Web App

- Created a functional calculator supporting **core arithmetic operations and input handling**.
 - Organized **clean JavaScript code** for **maintainability** and **readability**.
 - Ensured **responsive layouts across devices**.
- 🔗 **Live:** <https://taarushi-byte.github.io/web-dev-portfolio/calculator/>

EXPERIENCE

Technical / Development Internship (Project)

Aug 2024 – Jan 2025

- Assisted with the **implementation, testing, and debugging** of **web features**.
- Collaborated using **Git/GitHub** for **version control** and **documentation**.
- Contributed **data handling, UI enhancements, and workflow optimization**.

EDUCATION

Amity University

Delhi NCR, India

B. Tech in **Bioinformatics** | CGPA 7.0/10

2023 – 2027

Indraprastha Convent School, Rohini, Delhi

Class XII (2021)

Ralli International School, Indirapuram, Ghaziabad

Class X (2019)

CERTIFICATIONS

- **Artificial Intelligence Fundamentals**
- **Natural Language Processing Essentials**
- **Machine Learning with Python**
- **Generative AI & Prompt Engineering**
